

MD

MD is a mildly alkaline liquid cleaner designed for use in a variety of cleaning operations. It effectively removes oils, grease, paints, graffiti and a variety of soils from surfaces. MD can be used in pressure washers, steam cleaning equipment, floor scrubbers or trigger sprayers for maintenance cleaning or for soaking small parts in still or agitated tanks. Because of its broad range of application MD can replace the duplicity of alkaline cleaners found in many manufacturing plants.

Features and Benefits

- Mild pH reduces hazard for workers
- Rinses freely and completely to minimize carryover and residue
- Removes a variety of soils at economical low temperatures
- Safe on most metals including copper and brass
- Contains no phosphate for easy disposal

Typical Properties

Appearance	Clear green liquid
Bulk Density	8.5 lbs/gal
Specific Gravity	1.03 @ 70 °F
pH (@ 4% by volume)	11.0
(concentrated)	10.5
Foaming tendency	moderate to high

Application Procedure

MD is used between 2 and 100 % by volume depending on the cleaning requirements and equipment being used. Concentrations of 25 to 100% are generally recommended for manual cleaning at room temperature. In heated cleaning tanks, concentrations of 5 to 10% should normally be sufficient. Lower concentrations can be used in floor scrubbers and other mechanical cleaning equipment.
