

Product Bulletin

Patriot

Patriot is a low foaming highly alkaline concentrated liquid cleaner and stripper designed to effectively remove oils, grease, paints, graffiti and a variety of soils from surfaces. Patriot will also remove the heaviest build up of metal interlock finishes and sealers from floors without the use of hazardous solvents or ammonia. Patriot contains carefully selected wetting agents and activators to provide efficient cleaning and long solution life. Patriot does not contain EDTA or other "hard" chelates, which interfere with common waste treatment practices. Because of its low foaming and free rinsing characteristics, Patriot can be used in pressure washers, steam cleaning equipment, floor scrubbers or trigger sprayers for maintenance cleaning.

Features and Benefits

- Low foaming for use in high pressure systems
- Rinses freely and completely to minimize carryover and residue
- Removes a variety of soils at economical low temperatures
- No VOC
- Contains no phosphates, borate or chelates for easy disposal
- No Toxic solvents
- No Ammonia
- Removes floor finish
- Nonflammable

Typical Properties

Appearance	Clear straw liquid
Bulk Density	9.92 lbs/gal
Specific Gravity	1.189 @ 70 °F
pH (@ 4% by volume)	13.5
(concentrated)	13.9
Foaming tendency	low

Application Procedure

Patriot is used between 2 and 8 % by volume for pressure and steam cleaners. It can be used at temperatures ranging from 90 to 180 °F. To strip floors or for manual cleaning dilute Patriot from 1:3 to 1:6 with water

Consult Material Safety Data Sheet before using for a complete description of proper handling procedures.
